WOW!

1 230 000

hits in just 18 months!

Amazing!

Trust that you did well in your November 2014 Exams!

1 300 Maths & Science teachers from 715 schools trained in 2014!

Special points to note:

- University applications require G 11 November + G 12 Term 1, 2 & 3 results to be submitted
- Hard work never hurt anybody!
- Maths & Science are the key subjects for your future!
- We will no longer wallow in mediocrity!

230 000 people from 195 countries (90%) have downloaded from our site!

Facebook page

If you want to do a Maths & Science tertiary education at a college or university you need to achieve at least **70%** in Grade **11 & 12** including **Matric finals!**

<https://www.facebook.com/pages/Maths-and-Science-Marketing/159372754100348>

Grade 12 learners: Remember that your Term 1, 2 & 3 marks need to be submitted with your application to University for 2016!

Achieving 70% or more in tests & exams will enable you to go to University to study and pass Maths & Science courses.

All Grades: Important links to check out:

Will you qualify?

Just click on the links below and download whatever you need!

1. [PowerPoint & PDF downloads to computer, tablet & phones](#)

2. [Download your G 10—12 Maths & Science learner workbooks:](#)

3. [Tests & exams with Memos](#)

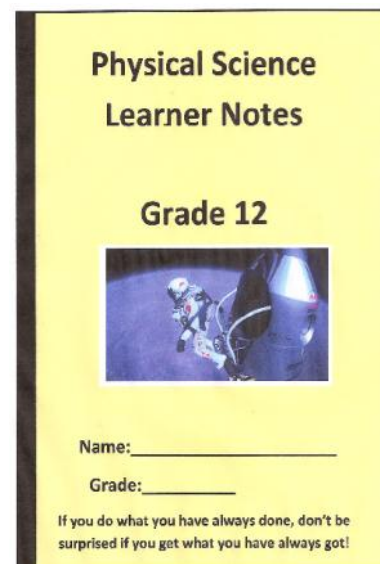

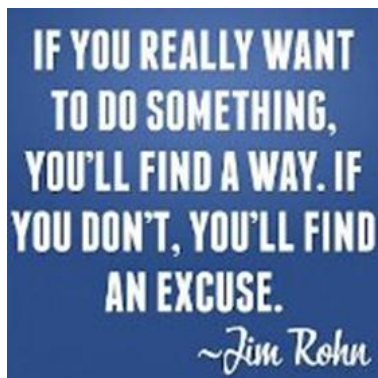

4. [Study skills evaluation & booklet](#)

5. [Grade 1—9 Maths games & worksheets](#)

6. [Maths & Science simulations](#)

7. [Science dictionary:](#)

8. [Maths Khan Academy video clips for Grades 1 - 12. Also in isiXhosa!](#)

Do you know that 40% of students drop out of University by the end of the first year of their studies!

New materials being loaded:

The following materials will be loaded by the end of January 2015 — ready for you to use!

1. New notes + sample questions and worksheets in Grades 7 — 9 Maths
2. 2013 & 2014 CAPS tests and exam papers in Maths from Grades 7 — 12
3. 300 PowerPoint & PDF animated Grade 9 Maths teaching and learning materials with embedded simulations and video clips in the slides
4. Grade 9 Maths learner workbooks
5. 2014 CAPS tests and exam papers in Science from Grades 10 — 12

Is it fair? Tell us what you think!

SA has worst Maths & Science in the world!

Remember, your future largely depends upon you!

Maths & Science Feedback

Separate Learner + Teacher Competitions

**Closing date for both competitions:
6 February 2015!**

Together with our initial sponsors, the Actuarial Society of South Africa (ASSA), we have been absolutely delighted with the response and usage by the 5 000 Maths & Science teachers and the 35 000 learners who have registered and made full use of our FREE materials, methodology and teacher training in the past 18 months!

We would really like to take our website offerings to the next level and to do this we need useful feedback on how our materials and methodology have been used at school by teachers, as well as at home by learners, who have used our content at any stage in the past 18 months.

Tell us:

1. How your marks improved after using our materials for 2 weeks or more
2. What creative methods did you use to achieve these improved results
3. How did you feel about being able to access all of our FREE materials
4. If your confidence, knowledge and enthusiasm for these subjects has changed
5. How you have been able to achieve your goals for the future
6. What career you hope to follow after leaving school

The winners will not necessarily be those with the biggest improvement in marks.

Your creativity in using our materials also plays a major role!

Prizes for both the Learner and Teacher competitions:

1st Prize:

HP 10 inch Tablet

2nd Prize:

Lenovo 7 inch Tablet

3rd Prize:

Asus 7 inch Tablet

Just click on the following links to get to your online application form:

Learner application form:

<http://mathsandscience.com/learner-entry-form/>

Teacher application form:

<http://mathsandscience.com/teacher-entry-form/>

We want to hear about your success and share in your excitement about your future!

Competition rules:

1. Learners and teachers may only enter the competition once and must complete the online application form that accompanies this newsletter.
2. All entry forms must have been completed and sent to us by 6th February 2015 and no late entries will be considered
3. When completing your 50 word description, refer to the guidelines to which we have referred on page 3 of this newsletter
4. Winners will be contacted **ASAP** after the 6th February 2015
5. The names of the winners will be published in our next newsletter & on our website
6. You may only enter the competition if you (learner) have used our materials for at least 2 weeks prior to an exam, while teachers would need to have used the materials and methodology in their classes for at least 4 — 8 weeks prior to an exam
7. **MSM** reserves the right to contact your school to verify the details and information in your entry
8. The judges decisions in this competition is final
9. **MSM** reserves the right to publish 10 — 20 of the top learner and teacher entries on our website

Maths & Science Marketing

wish you much success in your teaching and learning in 2015. We know that you have the right materials and if you use the methodology correctly and work very hard, we are confident that you will be able to excel in your endeavours this year! Good luck!

Discontinuation of our initial website sponsorship by ASSA.

Although the Actuarial Society of South Africa have been quite delighted with the response and support from the 4 900 teachers and the 220 000 learners who have accessed and used our website in our National Maths & Science project, they feel they are unable to continue to provide the necessary sponsorship and funding that is required to take this project to the next level.

ASSA, on behalf of all of the teachers and learners from around the world, who have used our site, we thank you most sincerely for the support, encouragement and funding that we have received over these past two years. Without the vision and support of Wim Els and Mike McDougall from ASSA, this project could not have got off the ground!

Thank you ASSA for what you have done for all these people in 2013 and 2014 — it is much appreciated! We fully hope and trust that many of our learners will go on to become actuaries in the future.

Maths & Science Marketing will do everything within our power to ensure that we secure another sponsor so that we can continue to provide more **FREE materials, methodology, a learning management system (LMS), as well as teacher training across South Africa in 2015 & beyond!**

We want to keep the site open for all!
